Great game!!!!

It was on my wishlist for awhile and then it went on sale this week!!!!

Excellent matching game. The more you play the better you get!!

Nice graphics and runs smoothly.

A great thinking game on the puzzles!

The game includes different game play, modes and timed and untimed play.

For \$1.79 it was a great deal!

I highly recommend this game! I wish I bought it sooner!

:-). This is a good puzzle game cross between connect four and tetris game but more complex.

It has a wide variation of game play and is relaxing and challenging at the same time.

It is the game to play when you don't want to play a game for a long time.

It is good value for the price. I think it is worth more than the asking price.. Is is worth the buy.

Buy it now!. This game is fun and it has me hooked. I now stay up way too late trying to finish challenges or picture puzzles! I wake up with my laptop on my chest and start playing again!

So much variety and different things to achieve in the many variations, as well as 2 daily challenges I feel that this game will hold my interest for a very long time.

I highly recommend to anyone who is a fan of challenges and match 3 or 4 games!. nice game \ud83d\ude96. I really don't know why this game has been overlooked as much as it has. Excellent match 3 (or match 4 in this case) that has several different modes and some tricky achievements. Would love to get active in the challenge style multiplayer.

Overall it's gotta be a solid 7/10
