About This Game

Virgo Vs The Zodiac is a sci-fi/fantasy JRPG inspired by the **Mario & Luigi RPG** series and the **Mother RPG** series in which you play as an obsessed villain.

The game features traditional turn-based combat with real-time execution of moves: blocking, countering and timing your attacks carefully as well as predicting your foes' moves is essential to succeed in **Virgo's twisted and unforgiving cosmic quest to bring back the Golden Age**, a period of peace, symmetry and balance, or so she thinks.

In this galaxy where every action means a reaction, you'll play as Virgo, the Holy Queen, often called Dreadful Queen by heretics, bringing mayhem to the Zodiac Realms and leaving a trail of stardust on the way, all to fit her excessively righteous worldview.

FEATURES

- **Unforgiving timed-actions combat** where all conflicts are lethal unless you protect yourself; precise timed attacks and blocks will bring an end to heresy.
- **Counter-Turn system:** Any attack can be countered by a variety of equippable counter skills.
- **No random encounters:** Battles fought are plot-relevant.
- **Rewards through exploration:** As you delve into the most heretical star clusters of the galaxy, you'll find a vast amount of explorable areas brimming with interactive objects. Many choices that will impact the game can be brought up through world interaction and exploration.

-
- **Decide your fate with multiple endings.**
 - **Crafting and upgrading a multitude of items shareable between your party members!**
 - **150+ equipment choices**
 - **Non-self insert and overly villainous Main Character.**
 - **Unlikely friends and foes** such as Goats, Save Dinosaurs and a Cookie Companion.
 - **Spare enemies and make friends!**
 - **Interact with different Zodiacs** outside of the main quest within the Zodiac Memories.
 - **SHMUP minigame and most importantly, you can also ride on Alpacas!**

. Irony Curtain Premiere TODAY with 10% OFF!:

Comrades!

We're at the finishing line of accomplishing a dream we've had for a very long time – publishing our own point and click adventure. Irony Curtain: From Matryoshka with Love is now live!

https://store.steampowered.com/app/866190/Irony_Curtain_From_Matryoshka_with_Love/

Throughout the years of avid gaming, sleepless nights filled with solving puzzles and laughing at all the jokes **we kept dreaming of bringing something to the table, enriching the genre somehow** – and now we put Irony Curtain in front of you to gauge how we did. We tried to give you **a classical point and click** with all the things we loved about the old-school games such as the Monkey Island series, but also do something based on the experiences that shaped us – such as the reign of communism in Poland, which affected most of us in one way or another.

<https://youtu.be/UIMTOysqbOg>

We joked about Irony Curtain being **Deponia meets Papers, please** – and we hope it's true! It's a classic point and click adventure, with a story that will keep you hooked, with fleshed out, relatable characters, full of humour and well-placed easter-eggs, riddles that will keep you puzzled, with a familiar interface, known from other p'n'c titles – all that without the elements that made us grit our teeth in the classics – the riddles can be solved by rational thinking (no dream logic!), some of them even have more than one ways they can be solved, it has good **music – created by Peter McConnel and Arkadiusz Reikowski** – and will keep you entertained for up to 10 hours!

So, **we're calling on all point-and-click fans** – we know you're out there! Play Irony Curtain, tell us how we did! We hope that we managed to bring you a wave of nostalgia, laughter and some insight into the absurdities of communism.

If you'd like to reach us, please don't hesitate to check out [the Steam Forums](#). See you there!
